Procedures and Conditions for Compatibility Listing of Batteries

- Solinteg conditionally provides CAN communication protocol, upon request and signed NDA.
- Battery supplier is required to finish all the items listed in **Requirement of Compatibility Test** provided by Solinteg.
- Battery supplier should provide the test reports with original data. Solinteg shall conduct and verify the compatibility test data to determine the final approval.
- For those batteries not listed but complete the tests and be approved, Solinteg would provide special compatibility statement if needed.
- This compatibility list and statement from Solinteg only guarantee inverter with corresponding authorized battery have proper performance under normal working conditions. Solinteg shall assume no liability on any system malfunction or any incurred loss or damages whatsoever.
- If any new models, adjustment of firmware and/or hardware, battery supplier must provide corresponding technical documents to Solinteg to estimate the listing process and test items.
- Any unlisted or unauthorized battery connections will lead to invalidation of Solinteg limited warranty. Solinteg shall NOT be liable for any consequences arising therefrom. Solinteg reserves the right of final interpretation.
